CO. TAX RATE DOWN HALF CENT

Taxes Lowered Despite Record Budget Coming Up

SAN DIEGO (CNS) — A is down a half-cent from last county tax rate of $2.143 per $100 of assessed valuation was set Tuesday by the County Board of Supervisors. The rate year's $2.148, despite the record-breaking amount the county is to spend in the coming year.

The 1962-63 budget is $91,885,406, compared with $86,483,939 for the year ended June 30.

More than half the county's financial requirements are provided for the coming year from state and federal sources, from fees for services and from the surplus left from last year.

The tax rate is to raise $32,499,581, compared with the $31,275,581 raised last year by taxation.

Supervisors Tuesday approved a county library rate of 9 8/10 cents per $100 of assessed valuation, down 1/10 cent from last year's rate of 9 and 9/10 cents.

In addition, tax rates were set for county school districts, water districts and other taxing bodies on the basis of the auditor's computations of what rate would be needed to collect funds to meet the budgets set by directors of those districts.

The county, in setting the latter tax rates, has no authority over the expenditures of the districts. But the county tax collector will collect the taxes for the districts and the county will turn the revenues over to the various districts involved.

BOY SETS FIVE FIRES

One was in a field north of 1850 El Prado and four were in the vicinity of Bradshaw's market, 1805 Massachusetts, L.G. Asst' Chief F. Dixon said the youth had started a fire on the market's bread shelf, in the market trash container, another on the market property away from the building and in a car parked on the market's lot.

The young culprit confessed to all except the one in the car

L.G. Downtown Lights Go On In Historic Moment

TURNED ON FRIDAY — At 7:30 p.m. last Friday, Aug. 24 Lemon Grove street lights downtown went on for the first time.

About 7:00, people started gathering at the "switch-on" site by the U. S. National Bank. Soon a firetruck pulled up and the crew put a ladder against the building on the west side of the site. Ron Gondek, dressed as a gorilla, clambered up the ladder and threw down balloons containing prizes to a large crowd of kids.

When it got toward 7:30, quiet attention turned toward a flatbed truck on which a big electric switch was located and on which the Dixie Lads band had been playing. Ed Koester, "father of the L.G. downtown lighting district" climbed onto the truck. He was joined by Sue Davis, Miss Lemon Grove. Bob Vaught, chamber president and Dave Bird, county supervisor were nearby with other local dignitaries.

Koester spoke briefly, his voice conveying the deep significance of the occasion. At 7:30, he and Miss Davis moved the big switch from "off" to "on."

Everyone looked at the globes on top of the light standards lining Broadway. Then came a glimmer of light in the globes (the lights are of the type which reach full brightness in about four minutes) and the crowd cheered and applauded.

The photo above, looking west on Broadway was taken when the lights reached full brightness. It was an historical occasion in Lemon Grove.

Susie Putnam, 8, Wins State Diving Championship

Little 8-year old Susie Putnam, daughter of Mr. and Mrs. Dwight Putnam of 3055 Crane st., Lemon Grove, dove her way to a state championship Saturday and Sunday at the San Fernando Valley Athletic club.

Susie, a third grader at Mt. Vernon school, L.G., is the only diver in S.D. County holding a state championship this year, according to Bill Acton, Susie's diving instructor. Bill Acton and Ray Yeakle, both well known swim-dive coaches and trainers, put 12 divers in the San Fernando competition and 11 of them placed. Yeakle said that at least one of the 11 would go on to Olympic competition.

Susie's father is chief counselor with the Probation Dept. at Juvenile Hall in S.D. Her mother, Rosemary, is widely known for her connection with the American Field Service, a world-wide student exchange program.

Susie's trophy is a gold, circular plaque, about six inches in diameter.

L.G. C.C. To Host Teachers

The L.G. Chamber of Commerce will be host Tuesday to 14 new teachers from high schools in the district. And to accommodate the program, the regular business meeting will start at 11:30 so that their guests might have their undivided attention from noon until 1:30 p.m.

Eight teachers and principal Mel Grant will be guests from Mt. Miguel and five teachers will be from Helix. John Hansen, president of Grossmont Jr. College; Palmer Svalstad and Bob Dryden, the latter two being trustees of the high school and college districts, will also be guests, according to Robert Vaught, chamber president.

L.G. Crash Kills Woman

A sleek Corvette which California Highway Patrol officers said was traveling at a high rate of speed Friday night, crashed into a power pole on Imperial ave., just north of Mt. Vernon snuffing out the life of Bonnie Bloodgood, 18, of 3151 Cowley Way, S.D.

The auto, officers say, was driven by Earleen Bolzendahl, 25, of 1685 Watwood ave., L.G. whose husband Herbert J. operates Old Heidelberg restaurant. The women were alone when the car crashed.

Miss Bloodgood was pronounced dead on arrival at Grossmont soon after the 11 p.m. accident. Mrs. Bolzendahl was scheduled for release from Grossmont this week. Her husband said that her injuries were minor.

Police said that the auto apparently went out of control as it traveled south on Imperial and climbed the shoulder before hitting the pole.

If charges are preferred, it will be after the CHP investigation has been completed.

L.G.'S FUTURE LOOKS GOOD BANKERS TELL MEN'S CLUB

The L.G. Men's Club reunion attracted about 100 members and friends last week and the meeting was steeped in good, clean fun. In fact, it was so enjoyable that the club is being revitalized with an organizational meeting scheduled for Friday at noon at the club's meeting place, Michael's.

Two major parts of the reunion program were panel discussion by three leading bankers with Jim Spears as moderator, and presentation by the club of a plaque of appreciation to Sup. David W. Bird. Judge Luther Hussey made the presentation as he spelled out Bird's contribution to the community.

The bankers, Charles Victory for the Bank of America; George Sears, for the First National Bank, and Don Swinney for the U. S. National, all agreed that Lemon Grove and the rest of the county is suffering only a temporary "flat spot" and that prosperity would soon again be within the reach of those business firms who "promote and merchandise." Lack of time prevented moderator Spears from handling more questions from the audience.

Sidelight tomfoolery occurred when Judge Hussey fined Sheriff Elmer Jansen $10 for displaying election stickers on the wall. The incident arose soon after Men's Club President Bill Davies opened the meeting and explained that the club was non-political.

Hussey was also involved in a "peace ceremony" after he and Max Goodwin, local newspaper editor, "attacked" each other with Indian hatchets. The peace ceremony consisted of the two burying the miniature hatchets under a pile of earth ending a feud between the two of long standing. The original cause of the feud is lost in limbo. Goodwin was chairman of the day.

Others who had parts in the program were Robert Newson, of the sheriff's forgery detail, who described the "fan-out" program now being installed locally to reduce bad-check passing.

Harry Griffen, chairman of the board of the Helix Irrigation District reported on the completion of the district's 3½ billion gallon Chet Harritt dam. Dr. John Hansen and Lewis Smith, Supt., both of the Grossmont Jr. College district, reported on the coming college bond election.

Robert Vaught, L.G. C. of C. president told of the ceremony at which the street lights would be lit in L.G. for the first time in the evening. Earl Warren reported for the Grow-Getters.

The group was liberally sprinkled with county officials, many of whom came to see their favorite supervisor get the award.

A chuckle resulted when Ken Rister, Men's club treasurer, reported that the treasury contained $4.35. This was soon after Sheriff Jansen paid his $10 fine. Not so much misfeasance as inflation, it was explained.

L.G. Men's Club To Meet Again

A re-organizational meeting of the L.G. Men's club has been called by Ken Rister, who was secretary-treasurer when the club folded more than a year ago.

The meeting will be Friday at noon at Michael's and the program will be Louis Cutino, a Spring Valley landscaper whose hobby is bridging the gap between Tijuanans and San Diegans. He will discuss the "real" Tijuana, the part few visitors ever see.

Rister requests that anyone interested in being an officer in the club be present at the meeting.

The club, extremely casual in make-up, met on Fridays for many years with the members hearing interesting speakers and participating in adult - type fellowship.

There are no dues nor membership fees.

At Helix High where 2,300 students are expected, a new gymnasium and a new library building will greet returning students. For the first time there, classes in Russian have been added to the schedule. Helix will have 15 new teachers. At Mt. Miguel where it is estimated that 2,250 students will enroll there will be seven new teachers and a new classroom building. The new building has adjustable walls to make the space more usable and will house the social studies department and a combination physics-electronics-radio lecture room and laboratory set-up.

Bride Wears Same Gown To Mark 25th Anniversary

The F. R. "Frenchy" Fauchers celebrated their 25th wedding anniversary with a garden party Sunday and more than 175 persons took part.

Included among the guests were the Faucher's four children and two grandchildren.

Faucher is postmaster of the L.G. Post Office. His wife, Naomi, his helpmeet for these 25 years, works in the post office with him.

Personnel of the post office gave the couple a sterling chip 'n dip set, properly engraved.

Mrs. Faucher attractively wore the gown in which she had been married in San Pedro in 1937 "but I couldn't find the blue spotted tie Frenchy wore when we got married," she said.

A wedding cake had the same ornaments on it used at the wedding.

Mrs. Faucher was attended by her mother, Mrs. Tom Smith.

Faucher's brother, Lester, of Escondido, who was best man at the wedding, and his sister, Mrs. Pat Lloyd of S.D. who was bridesmaid 25 years ago also were present.

It's Our Own Blood

We are indebted to Arthur Chapelle, one of our contributors for a clipping he supplied to us last week. It appeared in an out-of-town publication and is credited to the Neb. Poultry Improvement Assn. Bulletin.

Some years ago while in Alaska, we were told a wolf story. Lately a similar story has appeared in print. These stories add up to the way Eskimos deal with wolf packs.

Eskimos imbed razor-sharp knives clasp down in the ice and apply a littie seal blood. The wolves are attracted by the blood, and lick the knives, cutting their tongues. They are delighted by the seemingly inexhaustible supply of nourishing blood they can lick off the knives and stand there licking until they drop in their tracks from loss of blood and then freeze to death in the snow.

This is a clever trick but we are in no position to jeer at their stupidity. We Americans have been falling for a similar trick for years, and this year it may be played on us again.

The variation in our case is this: In Washington and in our state capitals are a great many politicians. Many of them are poor men, a few well to do, but none of these proposes to give to the public any of his personal estate.

Instead they propose to give us federal support. They will empty the federal treasury at our feet.

Now we should know that there is nothing in the federal treasury but what we have sent there by way of the tax collector. These taxes are our blood, and we cannot be nourished by it any more than those wolves can thrive on their own blood.

But we have brought this kind of government. We are trying through the federal process to nourish ourselves with our own blood.

Death Of A Merchant

From one of our good local businessmen, Richard Thompson, operator of Dial Drugs, comes a clipping from a drug industry publication.

"We have recently been hearing repeated references to the so-called "merchandising revolution" taking place in this country.

"This phrase usually means that in one area after another local, independent retailers for miles around are being

Broken Live Wires 'Spit' At Firemen

"They lie there and spit at you like a rattlesnake," Capt. Mark Foote of the Lemon Grove Fire Department said this week in describing 4,000 volt live wires that had been snapped and fell to the street after an accident.

Firemen were called to Mt. Vernon and Skyline at 1 a.m. on Aug. 25 after a 1962 Buick Special ran into a telephone pole at Miller's Dairy. The driver, Milo Dewane Munger of San Diego wasn't injured. Major damage was done to his car.

"Luckily there wasn't a a crowd," Capt. Foote said. Firemen stood guard near the "hot wires" which could have electrocuted anyone touching them, until the Gas & Electric Co. arrived. "In the dark one could clearly see the wires shooting out jagged arcs of electricity," Capt. Foote said.

The car not only hit the pole, breaking guy wires and snapping live wires, but also went through the dairy's fence. Electrical service at a block of homes was interrupted.

Firemen had been to a similar call just a few moments before on Imperial near Mt. Vernon. A Corvette had snapped off a telephone pole, moving the base about 30 feet, firemen said. A San Diego girl was killed in the crash. (See story on this page).

Capt. Foote said 8,000-volt wires didn't break but were hanging close to the ground.

HS Board OK Warburton's Textbook Plan

The Grossmont Union High School District board Monday night heard a report from Assoc. Supt. Harold G. Hughes indicating the additions at El Cajon Valley High school, Helix High school and Mt. Miguel High school would be ready for occupancy with the opening of school. The Mt. Miguel project, however, was delayed by strikes and rain and the Board granted a four week extension of time for completion. An enrollment is anticipated on September 11 of 13,300 in the district's seven high schools and continuation schools.

The board approved a new custodial staffing formula based upon 18 units or approximately 18,000 square feet per custodian. The formula allows for differences in the design of buildings and for the night school use of the facilities.

The board approved textbook recommendations submitted by John T. Warburton and the faculty committees. Under the policy adopted by the board, new adoptions are on a trial basis for the first year which limits purchase of new trial text books to one or two sets, thus avoiding waste of funds which would result if the books were later found to be unsatisfactory. One unusual feature was the adoption of a Spanish textbook which is exclusively records and tapes in order to make more effective the audio lingual approach instruction. This system will permit the student to take his tapes and records home for practice in the homework assignments.

Port Bill Means 55,000 Jobs Sen. Fisher Tells Kiwanis

State Sen. Hugo Fisher Wednesday told the L.G. Kiwanis Club that the S.D. Port Authority Bill which he sponsored, will provide more than 55,000 jobs and encourage more than a half million dollars in private investment here in the following five years.

The approval of the Bill in November, he said, would break the logjam on highway and railway development to the east, bringing cheap transportation to S.D. for the first time.

He said that he had worked for several years attempting to get the communities together to draft the Bill and finally ended up doing most of the work himself.

He explained that the provision that unincorporated areas might be included in the Port District was to accommodate an enclave in the river bottom between National City and Chula Vista.

He said later that the communities of L.G. and S.V. could be in or out of the district depending on how the residents instructed their supervisor. Sup. David W. Bird had said earlier this month that the supervisors would exclude L.G. and S.V. unless requested to do otherwise.

Fisher also said that S.D. was plagued by too many people who tell you it can't be done and too few who tell you how it can be done.

He was introduced at the Kiwanis club by John Dail, local Democratic leader.

During the day Sen. Fisher attended coffee meetings at the homes of Mmes. H. J. Warner, 7815 Mt. Vernon; S. R. McKern, 3023 Washington; Kay Baffone, 506 Sears, and Richard Robinson, 8680 Golf dr.

McCabe Opens Office For P.R.-Marketing

Emmett McCabe, for fifteen years diretor of public relations, sales promotion or advertising for Convair, has opened offices in the California theatre bldg. to expand his practice of business counseling and marketing services.

McCabe offers complete marketing services including advertising and public relations activities plus public opinion surveys, fund raising and political campaign management. He was unsuccessful in his race to be G.O.P nominee for a seat in the Assembly, in the 77th District.

A former president of the Public Relations club of San Diego, McCabe also has been a board member and vice-president of the local Advertising and Sales club and a frequently invited speaker of the National Association of Advertisers. He was awarded The George Washington Medal by the Valley Forge Foundation for a public relations program of education on civil defense that was adopted by schools throughout the country as a required part of their curriculum.

WAS VOLUNTEER OFFICIAL

As a business man and civil leader, McCabe has been a volunteer official of most of San Diego's health and welfare organizations, including the Door of Hope, the Boys Club, YMCA, Red Cross, Tri-Hospital drive and twenty odd additional activities in our county. For over ten years he was president and fund raiser for the local chapter of the Arthritis and Rheumatism Foundation, and he served as vice-president and county fund raising chairman for the American Cancer Society, and as a founder and treasurer of the San Diego Traffic Safety Council.

As a member of the Board, he volunteered to head the campaign which established the Grossmont Hospital district after two previous attempts failed. For over 4 years he has been a member of the advisory Board and public relations consultant for Mercy Hospital.

Col. McCabe holds the Legion of Merit, the Air Medal and other wartime decorations and received a special citation from the Air Force for conceiving a program of public service advertising.

McCabe has owned and operated a business and political information survey with an unerring record of validity, for a number of years, and proposed to make this activity an important adjunct of his services.

WROTE FOR TV

His experience includes the writing of radio and TV speeches and commercials, the preparation of industrial motion picture scripts and the writing of outdoor advertising messages.

For three years McCabe was the Washington Representative of the Los Angeles Chamber of Commerce, and this, together with his service as Administrative Aide to a member of Congress, brought him knowledge of Government relations on all levels.

"GOLDY'S "CACTUS ROOM" AT MICHAEL'S REPRESENTS IMPORTANT CONCLUSION

Bill Goldy

After traveling throughout most of the U.S. including Alaska, visiting some of the best restaurants and nightclubs in the world, Bill Goldy, owner of Michael's Restaurant in Lemon Grove has come to a conclusion.

His conclusion should interest the many people who've always looked upon Michael's as a very sophisticated place. Bill Goldy has decided that western music and western atmosphere "play a predominate part in the entertainment world almost everywhere."

The result? A section at the back of Michael's opens Sept. 4 as the Cactus Room. Already a big painting of a cowboy on the back of the building (done by Bob Wilson of L.G.) is showing off what will be an exclusively western place with appropriate motif, and with waitresses and bartenders garbed in western wear.

Out front the sophistication remains, so that now Michael's is offering a doubleheader in entertainment. The Sundowners, consisting of Carl and Hazel Wright, Keith Rymer and Bill Barron, will start the western music going in the Cactus Room on Thursday, Sept. 6 and will be performing there for western fans Thursdays, Fridays and Saturdays from 9 to 1:30 at night.

The question is: Will Bill Goldy start wearing cowboy boots?

Water Works Dam Near Ready

COMPLETED — The 3½ billion gallon Cher Harritt dam was completed last week. It will supply water for 135,000 consumers in the Helix Irrigation district after it is filled with Colorado River water.
Built at a cost of $1,708,000, the dam was financed out of district revenues.
Shown at the dam site as the job was completed is Harry Griffen, left and Bob Rundell, chairman and vice-chairman of the board respectively. L.G. is Griffen's district; S.V. is Rundell's.
The dam was named for the district's first general manager and chief engineer. Colorado river water will begin flowing into the reservoir in the next three weeks.
165-foot inlet-outlet tower in background permits selection of best water for district consumption.

put out of business by a single nationally owned "super-collosal" absentee-owned retail store.

"Perhaps some of us can shrug off the effects of this economic upheaval on the individual merchant. There are many who can watch a good hard-working citizen lose his life's savings in a business failure and pronounce the casual epitaph: "Another victim of progress." But what about the effects on the community? What about the loss of commercial and tax revenues we suffer every time a local business is forced to close its doors. When a thriving little business community is turned into a ghost town, the tax load on the residents is bound to increase.

"But the merchant isn't the only victim. You, as a consumer, also feel the effects of this merchandising revolution. First of all, you are unwittingly building a monopoly that will be able to change as much as it pleases—and you'll have to pay the higher prices. Second, the friendliness and courtesy you usually find in a small locally owned retail establishment have been replaced by cold, impersonal dealings masquerading as efficiency.

"In addition, this merchandising revolution also means our good faith and confidence are being violated and our intelligence insulted by deceptive tricks and misleading advertising.

"We are reaching a point where it is becoming impossible to judge whether we are getting an honest value, a real bargain, or whether we are being taken in. Price cutting is cutting down on the quality of the products we buy. Predatory price-cutters in their determination to undersell their competition are forcing manufacturers to put inferior labor and materials into their products.

As Others See Us

From our contributor Kenneth Barwick comes an item from the Paris publication PREUVES . . . and don't say we haven't been saying the same thing right along: "Madrid is a city of banks. They are as tall as cathedrals, and some of them even have bell towers. One might think that they serve to administer a kind of upside-down economy, banking the debts and poverty of the Spanish people. But such is not the case, for Spain is no longer a nation or a state: it is the private property of a group of persons who exploit her for their own profit. One recalls Dufayel's phrase: 'When the poor are lumped together, it's amazing the amount of money the wretches possess!' Thus the poor of Spain support the few families that own the country. The main function of the Spanish banks is to transfer to Switzerland and thence to safer and more profitable investments all the money that Spain's owners can extort from the country as well as that portion of American loans they can divert to their own accounts - as even those in charge of its distribution have admitted.

Nixon Kick-off Set For San Diego

Richard M. Nixon today announced the choice of San Diego for his kick-off address in the California gubernatorial campaign.

What promises to be the most vigorous political campaign in the state's history will begin here September 12 with a luncheon at the U.S. Grant Hotel.

Pat Hyndman, chairman of the Kick-Off luncheon, said this is the first time a candidate for governor has selected San Diego for a campaign springboard.

Luncheon guests will include Democratic and Republican business and professional persons from throughout San Diego County. The event is unique since attendance will be equally divided between both parties. Members of Republican Associates will host their Democratic business associates and friends. This will be the first time a major campaign has been inaugurated before members of both political parties, Hyndman said.

Letters To The Editor

Dear Editor:

In a few short days, the voters of the Grossmont School District will decide at the polls whether or not the education and future of their children is worth a few pennies a day. The institution in question is the new Grossmont College. Defeat of the bond issue September 5 will very likely mean the end of our college. Can we afford to let this happen?

We can't afford it financially, for the cost of a similar education program, now required under state law to be supplied by every high school district, will be much higher if contracted for through San Diego City College.

More important than dollars and cents, however, are the human values. Can we afford the human loss involved in a patchwork arrangement with San Diego City College? I think not, for an excellent, imaginative, farsighted junior college, locally owned and controlled, is one of the greatest assets to a community.

RECLAMATION VALUE

In my experience as a minister, and before that as a long-time participant in the higher education program of our state, I have seen many examples of the creative and redemptive effect the junior college has in the careers of thousands of young men and women.

One young man floundered through high school, unable to find either himself or his future. A stint with Uncle Sam straightened him out and opened his eyes to his potential. He returned to civilian life. In most states, he would have been unable to enter college, because of his poor high school performance. However, because of a junior college, he was able to prepare for the university. He now has a Masters degree and is teaching school.

A woman in middle life enabled to return to school and prepare for a teaching career. A young man now studying for an advanced degree in physics who would have been lost seven years ago without a junior college. These are only a few examples of the value of the junior college in helping those whose teen-age scholastic record was poor for one reason or the other, find themselves and their place in society.

ENRICHES DAILY LIVES

This is only one aspect of the junior, or community, college's work—helping people make up for their past errors. These colleges also enrich the daily life of thousands of plumbers, housewifes, office workers and others. They share in the cultural courses of the school, courses which, in a university, would be closed to them for reasons of cost (up to $35 per unit), distance, preparation or university policy against part-time students.

Another aspect of the junior college helps our sons and daughters. Not all our children can, or should, go on to college. We have too many students filling our universities simply to grab their "union card" for a fat job in industry. Many young men and women should enter the vitally needed technical fields, business fields and other skilled semi-professional areas. The junior college is the best, and often the only source for such training.

LOW COST FACTOR

Finally, the low cost of the junior college, coupled with its proximity to home, lowers the high cost of educating our children, even if they spend their last two years in an expensive private college. I know of several youngsters who will not be able to afford four years of college without spending the first two in a local community college where they can live at home.

Our colleges and universities are overcrowded. When I entered UCLA several years ago, we freshmen were told flatly that one-half of us would be flunked out the first year. Such a policy stems the tide of overcrowding, but the competition and anxiety it creates in the students destroys many of them and ruins their outlook on academic pursuits. The junior college is interested in helping the student and they have the time and staff to do it. I know several friends who were broken by the rigorous competition at UCLA and who went to Santa Monica City College to find their bearings. Almost all returned to UCLA and finished with flying colors. But the story would have been different if there was not a junior college.

MASTER PLAN CITED

The simple fact is that, under the new Master Plan for Education, the local junior college will be supplying the first two years of college to the vast majority of our children—your son and mine. They can go to our own college, under our control and near home, or they can wander down to San Diego City College and make out as best they can.

Education is important. California spends freely on education and its results are all around us. More than any other state I have visited, California has a high level of literacy and job skills. That is why we attract such complex technical enterprises as the aerospace firms. We have the men educated to run them, or the schools where they can learn.

I will vote for the Grossmont College bonds. I have seen too many examples of the wonders junior colleges perform to do otherwise.

Dear Editor:

In regard to the article printed in the Lemon Grove Review on August 23, 1962, there was a misprint or error stating that Mrs. John Gabriel would not sue. There was no such thing said.

Dear Editor

Here are summaries of some sections of the California Education Code that are pertinent to junior college building bond propositions in Grossmont school district.

JUNIOR COLLEGE shall: 5702: be maintained by each junior college district. 5705: provide grade 13 and 14 education. 5706 and 9: admit any high school graduate.

JUNIOR COLLEGE may: 5708: provide grade 11 through 14 education. 5704: be maintained as separate day or evening junior college or in conjunction with any day or evening high school.

PROPERTY NOT IN ANY SCHOOL DISTRICT MAINTAINING A JUNIOR COLLEGE shall: (for residents who are grade 13 and 14 students in junior colleges in California) 20201 and 2: be taxed sufficient to pay current expense of education, transportation, and $300 per unit of average daily attendance for us of buildings and equipment, to districts maintaining the junior colleges the students attend.

LEGISLATURE - declared policy (not mandatory): adopted in 1961 per Assembly Bill 608) 2581: All territory be in districts maintaining a junior college.

Citizens interested in knowing more truth are urged to go to a school office where a copy of the California Education Code is available, and read the sections in their entirety.

Taxpayers in the Grossmont school district are not confronted with a statutory necessity to pay $300 per student annual building use fee, nor to make a choice between constructing and maintaining a separate grade 13 and 14 junior college, or sending our grade 13 and 14 students to other districts for education in junior colleges.

A "NO" vote is not as costly as a "YES" vote. Claims that a "YES" vote will cause a lower tax rate than a "NO" vote are fraudulent.

I welcome an opportunity to debate against the Sept. 18 $7½ million bond proposition. I am a proponent of local grade 13 and 14 education programs but oppose a separate grade 13 and 14 junior college in Fletcher Hills.

Roger F. Winchester,
Jamul

Dear Editor:

Your editorial about facing up to our falling economy hit home with me. When the going gets tough, the tough should get going. The Employment Dept., for example, should get tough with people who do not want to work, and the funds that are saved should be put in the kitty for deserving people. Let's face it! We know people are cheating on unemployment insurance and bragging about it. This is a sick situation.

In the same edition I noticed the Coordinating Council is a little sick. As past president of this organizttion I offer a recommendation which should strengthen the group's effectiveness. I suggest a strong dose of consistency and a build-up of respect for differing opinions.

I observed that members this year are prone to change the rules from meeting to meeting and this seems unfair to those who are offering to serve sincerely.

L.G. DOG WINS HONORS AT BALBOA PARK SHOW SUNDAY

A Lemon Grove dog won honors at the annual Silver Bay Kennel Club All-Breed Dog Show and Obedience Trials in Balboa Park last Sunday.

A Rhodesian Ridgeback, "Shamva, C. D.," owned by Richard and Ruby Mann of 6840 San Miguel st., got the best of breed prize and an obedience award. (Eight Ridgebacks were vying.) The 3½-year-old dog finished out its championship, which is gained by a dog in a succession of shows, with a total of 16 points.

The C. D. stands for companion dog, Mrs. Mann said. With the added points, Shamva now will have C. D. X. after her name, meaning companion dog excellent. This will be when the Manns received AKC notification of the dog's standing.

Mrs. Mowery said she had taken Webber, his wife and two children in nearly a month ago and fed and housed them. During her absence they left, taking Mr. Mowery's .45 pistol; a gold belt buckle and some change. Webber said a bad check for $90 in Indiana afforded him funds to get to California. He will hear sentence on Sept. 24.

Roy A. Myers, 54, 3750 Fenwick dr., S.V. made the discovery.

CRIME, INC.—JR. STYLE

What appears to be a systematic teaching of young juveniles to commit petty theft from the area's stores, was uncovered on Aug. 15, with the apprehending of two Spring Valley boys, 13 and 16 years, while they were attempting to trade to an El Cajon sporting goods store for cash ammunition stolen from a La Mesa store. The boys' story was the ammunition had been purchased by their fathers, was not the right size, and was being returned for refund.

The owner of the El Cajon store contacted the fathers of the boys and found the story false. Reported to the Sheriff's Dept., the trail led from the the two Spring Valley boys to another boy, 13, of Spring Valley who has an unsavory record. According to the story unrolled, this juvenile would take inexperienced boys to a store and show them how to hold the attention of a clerk while another did the lifting. The boys then brought the money to their 13-year-old instructor, who gave them a share of the proceeds. The boys confessed the lesson had been given about six months ago and they had been operating ever since.

The case was referred to the probation department. The boys were released to the parents.

Mrs. Howard Fields, 1925 El Prado, L.G. left her diamond wedding ring in an ash tray in the kitchen Aug. 17. Three days later she went to get it to put it on. The missing ring is valued at $600.

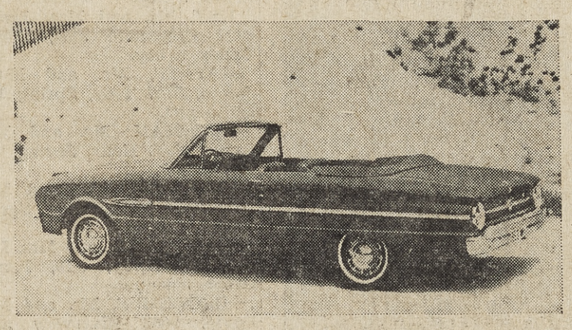
STELLA ATTRACTION

SEASON FOR GIRLS — Propaganda experts, variously known as press agents, press representatives and public relations executives, deluge newspapers with pictures of pretty girls. The gimmick is that these photos are accompanied by captions which have a couple of commercials so ingeniously worked in that busy editors usually miss them and hidden products get free advertising as an adjunct to the picture.

For example the picture of Stella Stevens above carried double-header. The propaganda rascals had slipped in a line about a movie Stella is appearing in soon, and in another spot they said her hair was as attractive as the picture showed because she used a certain brand of shampoo. To the propaganda we say "phooey." To Stella we say "hello." The excuse we give for printing the picture of Stella? Simply that we like pretty girls.



LOW-SLUNG and spirited, Ford's all-new compact Falcon Futura convertible leads off Detroit's 1963 parade of new car models. Wire wheel covers, bucket seats and a floor mounted, 4-speed transmission are a few of the many options available.

This newest addition to Ford's industry leading compact line—more than a million Falcons have already been produced—will be introduced in dealer showrooms Friday, September 28.. Locally, they will be displayed at Spear's Ford.

What God's Power Can Do For Man Is C. S. Sermon

How the works of Christ Jesus proved his sonship with God and illustrated what God's power can do for man will be brought out at Christian Science church services Sunday.

The Lesson-Sermon entitled "Christ Jesus" will have as the Golden Text this verse from the Bible (I John 4): "We have seen and do testify that the Father sent the Son to be the Saviour of the World."

Selections from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include (p. 333): "Christ expresses God's spiritual, eternal nature. The name is synonymous with Messiah, and alludes to the spirituality which is taught, illustrated and demonstrated in the life of which Christ Jesus was the embodiment."

George Washington was famous for many things, but it is a little known fact that he was famous for the beer that he brewed at Mount Vernon. The recipe he used, in his own handwriting, is preserved in the New York City library.

REPORTED TO BE LARGEST SCOTTISH WEDDING EVER HELD IN S.D. COUNTY

The Kerr Brinker Scottish wedding was reported to be the biggest of its kind ever held in San Diego County.

The procession into the church was led by members of the San Diego Highland Dancers Association in vivid Scottish dress and carrying swords.

In the recessional, this same group made an arch of swords near the chancel and only the bride and groom and the maid of honor and the best man passed through it as a church full of people most of whom had never witnessed a Scottish wedding, looked on.

The honor guard provided an arch of swords at the main entrance of the church and everyone departed from the nuptial event through here.
